EDUCATION

THE UNIVERSITY OF CHICAGO

Bachelor of Science in Computer Science, Minor in Physics

GPA: 3.6

Chicago, IL

Expected: June 2028

Relevant Coursework: Mathematical Foundations of Machine Learning, Systems Programming, Linear Algebra, Mathematical Methods in the Physical Sciences II,

HORACE MANN HIGH SCHOOL

GPA: 3.72

New York, NY

June 2024

Relevant Coursework: Art of Data, Theoretical Computer Science, Challenges in Engineering, Physics with Calculus

SKILLS

Languages: Proficient in C, C#, Scala; Experienced in Python, Java, C++.

Libraries & Frameworks: Pandas, NumPy, Numpy.linalg, Seaborn, Matplotlib, Unity, Jekyll

Tools: Visual Studio, Android Studio, Git, GitHub, Jupyter notebook, Conda, Markdown

Language: Proficient in French (reading/writing/speaking)

EXPERIENCE

Activate

Chicago, IL

Artificial Intelligence Internship

June 2026-August 2026

- Built and filled out multiple databases such as the equipment library and Business Development using AI to research, scrape the net and find resources while verifying every step manually and filling gaps that the AI missed
- Developed and improved webpages for the company, improving layout, style, wording, content and graphics using AI

Personal Project

New York, NY

Game Developer and 3D graphics designer

Summer and Fall 2023

- Conceptualized, designed and created my own video game to get experience implementing my ideas
- Learnt how to code independently in C# and how to use the Unity game engine on my own
- Developed understanding of the process and timeline of developing and launching a game
- Debugged code and troubleshooted issues with the game, developing my problem-solving skills

TECHNICAL PROJECTS

Uncommon Hacks, University of Chicago

March 2025

- 4-member team awarded “Best in Track: Hardware”
- Built and learnt to code multiple retro games within one game system using Python, pygames, pygame

Transit Hacks, University of Chicago

April 2025

- 4-member team awarded “Honorable Mention” (Tied 3rd) place for ‘Safe Transit’ application
- As a team, prototyped application with Node.js, React, Typescript to map routes while taking safety/crime statistics into account
- Learned on the fly how to code a Node.js application and configure backend and frontend features

LEADERSHIP AND ACTIVITIES

FTC Robotics Club

New York, NY

Captain & Team Manager

September 2020-June 2024

- Captained and managed robotics team to build robots for FTC competition
- Communicated ideas with team, executed decisions based on team capacity, and organized club members
- Had to be adaptable during competition to address problems and improve robot on site with whatever tools available

Service-Learning Team

New York, NY

Steam Lesson Planner and Teacher

September 2021-June 2024

- Prepared and taught lessons about STEAM concepts while also developing communication and bonding experiences for KHCC children, ages 7-12, giving back to the surrounding Bronx community

INTERESTS

Academic: Programming, Data analysis, Machine Learning, Game Design.

Hobbies: 3D Modelling/Blender, Boxing, Piano, Drawing & Painting.
